

Cleanzone Award 2022

The innovation award for clean technologies

Since 2012, this award has been recognising people and their entrepreneurial courage in pioneering new approaches. The award honours pioneering advances in the field of cleanroom technology for their innovation, automation, sustainability and efficiency. The Cleanzone Award is open to companies, organisations, scientific and academic institutions and individuals worldwide.

This prestigious industry award was established by Frank Duvernell of Cleanroom Future AG, and since 2019 the Cleanzone Award has been presented by Messe Frankfurt in partnership with the publisher Wiley Corporate Solutions and its ReinRaumTechnik trade journal.

A five-person panel drawn from the fields of research, instruction and actual practice is responsible for selecting the five most pioneering concepts amongst all submissions. These finalists will then be given their own platform at Cleanzone in Frankfurt am Main on 25 September 2024, where each will have the chance to impress trade fair visitors in the course of a fifteen-minute presentation. The finalists' projects will also be featured on posters in a special area devoted to the award.

Visitors can vote for their favourites during Cleanzone from 25 to 26 September 2024, and the Cleanzone Award will be presented on 26 September 2024 at the trade fair in Frankfurt am Main. The winner will receive a cheque for 3,000 euros by Cleanzone's media partner ReinRaumTechnik.

The contest is open to everyone whose idea has the potential to improve technology or increase efficiency in the cleanroom industry. All entries must be received by 1 July 2024.

Your application: You have developed an innovation that you believe is worthy of an award? Then it's time for you to present your idea and impress the trade fair audience and a panel of experts.

Application deadline: 1 July 2024

Presentation of the nominated projects: 25 September 2024

Award ceremony: 26 September 2024

Cleanzone Award 2022 – here's how you can take part!

The award for clean technology is open to finished products, an automation solution, new services and even ideas that are still in the project stage. The most important issue is that the innovative nature of the submission must be easily recognised. Your benefits:

- The opportunity to find out how your idea is received by the market
- Evaluation by an independent panel of experts
- High profile thanks to Messe Frankfurt's marketing measures for the award ceremony at Cleanzone 2024 in Frankfurt am Main.

Please submit your concept in the form of a clearly structured PDF file by no later than **1 July 2024 online** at:

cleanzone.messefrankfurt.com/award-2024

Your application materials must be submitted **in English!** For German-speaking applicants, we will also accept concepts in German and English.

Please remember the following items when making your submission:

- Clear formulation of the innovative character
- Informative pictures / product photos
- Contact details for a point of contact

There is a fascinating story behind every innovation – tell us yours!

We are keeping our fingers crossed for you and wish you good luck with your submission!
